FSSAI Issues Notice in Regard to the Import of High-Risk Food Products at Specific Ports

On 11th January 2023, the Food Safety and Standards Authority of India (FSSAI) issued a Notice in regard to the Import of High-Risk Food Products at specific ports-reg. deemed to be effective from 01st March 2023.

FSSAI, in consideration of the comments, received from the stakeholders in order to envisage a robust Import Control System in India along with ensuring efficient monitoring and traceability of High-Risk Products, has now decided that the import of the following items is to be permitted through only 79 designated ports which are manned and managed by FSSAI mainly -

- Milk and Milk Products
- Egg Powder
- Meat and Meat Products, including poultry, fish, and their products
- Foods for infant nutrition/Infant Foods
- Nutraceuticals, Health Supplements, Foods for Dietary uses, Probiotic and prebiotic foods, and Foods for Special Medical Purposes

The "List of Ports" is attached to the Official Notification.
